

## **ACME celebrates National Road Safety Week 2016 with a massive road safety awareness drive**

This week, we are celebrating Road Safety Week themed **“Road Safety Week – Stop Accidents Before They Stop You”**.

For the uninitiated, a nation which accounts for the most number of road incident related deaths in the world is observing the time from January 11-17, 2016 as ‘National Road Safety Week’.

Taking the lead to spread the good word, ACME has kick-started its nation-wide road safety awareness initiatives to ride home the message of road safety to people across India. Spreading road safety awareness across India, ACME is conducting Safety Riding Campaigns across 17 Telecom Circles, 12 Solar Power Plants, Head Quarters at Gurgaon and its 11 Hectares Manufacturing Plant at Rudrapur to mark the National Road Safety Week 2016 and touch the lives of everyone at large.

Here are the glimpses of Safety Riding Campaign organized by HO Team.

Stay tuned for more!

### **About ACME Group:**

The ACME Group is a leader in the field of energy management and innovative solutions for the wireless telecommunications and alternate energy sector. It prides itself as a pioneer in the development of green technology solutions that are environment friendly, energy efficient, & cost effective and also capable of delivering a quick return on investment.

ACME group is a result of the vision and commitment of its founder, Mr. Manoj Kumar Upadhyay. He sought to realize this goal by providing radically new technology solutions through intensive research and development instead of making incremental changes to existing technologies. The establishment of ACME Cleantech Solutions Pvt. Ltd. (formerly ACME Tele Power Limited) in 2003 was the first step towards realization of this dream.

Today ACME products are installed over 1,50,000 telecom sites across the globe. ACME products help significant Carbon Emission Savings.

ACME has enabled telecom expansion to farthest as well as most interior and hitherto unconnected regions of India while reducing carbon emissions from the telecom site as well. The Company today enjoys an international presence, through its own establishments, channel partners, and associates. For further information, please visit <http://www.acme.in/>.
